Subject

- Practical software engineer with 4 years of experience in high-tech industry
- Deep knowledge c# , c++ , python , java ,oop , Operating system , Data Structure
- self-learner, team player, working under pressure, high motivation and eager to learn and develop

Education

Courses and Trainings:

2023 - 2024: Microservices and Cloud Development (Java, Spring Framework, Docker ,K8S)-

Practical training, in cooperation with Dell totaling 235 academic hours, includes :

 • Comprehensive training track with emphasis on industrial methodologies and handson practice.

• Technologies & methodology: Git, Java, Spring Framework (Spring Core Container, Spring Boot, Spring Data JPA, Spring Rest Data, Spring Cloud, Spring Security), SQL – MYSQL, NOSQL – MongoDb.

Docker and Docking: (Docker Engine, Docker image, Docker Container, Docker Hub), K8s: Deployment yaml, K8s Objects, Microservices patterns – Services Discovery

2019-2023: Software Engineering (Diploma) at Kinneret Academic College, GPA 82.

Courses: Object Oriented, Algorithms, Databases, Data Structure, programming languages**,** full stack, IOT

Final project: Independently developed Delivery and Inventory Management System for streamlined supply chain control. Utilized PHP, SQL DATAPASSE, Flutter, and GitHub for versioning.

2010-2016: Ort Bostan Almrj School, studied robotics trends and production processes, including building robots, using a lathe and 3D printing, and programming.

Experience

June 2023: Software Engineer | GMS-Tech Ltd| lod

Developed software solutions for logistics, procurement, and operations using .NET C#

Created mobile applications for Android using Java and web systems using React and ASP.NET REST API

Conducted testing, debugging, and collaborated with cross-functional teams to meet project goals

Utilized Cloud Azure for installations and Git for version management

NET C#, ASP.NET REST API ,sql, winform , java(Android) , Linux

2022-2023: Software Engineer | Gilsar Technologies Ltd| Haifa

Collaborated on software solutions using .NET C#, Xamarin, and PHP for logistics, procurement, and operations

Conducted testing, debugging, and worked with Cloud Azure and Git for version management

NET C#, ASP.NET REST API ,sql, winform , Xamarin, PHP

2019-2022: System Manager |Tiratzvi| Bet She'an

- responsible for ongoing management of servers with companies that implement the systems.
- Managed databases and scheduling interfaces between the systems, including maintenance

Technical skills

Programming languages: C++, C#, C, Java, Python, PHP

Web Development technologies: HTML5, CSS3, JavaScript, React.JS, jQuery, Typescript

Databases: SQL Server, NoSQL (MongoDB)

Operating system: Windows, macOS, Linux, Android's

Mobile App: Xamarin C# development for iOS and Android app, React Native, Flutter

Networking protocols: TCP/IP, HTTP, DNS, FTTP

Languages: Arabic- Native | Hebrew- Native| English- fluent
